

JAVIER SOTO

1227 Poplar Springs, Chula Vista CA | 760-623-5056 | sotojavier4215@gmail.com

CORE SKILLS

Automation & Data: Excel, Excel VBA, Data Analysis, Workflow Automation, AI Tools

Product & Design: UX Design, UI Design, Human-Centered Design, Interface Design, Prototyping

Project & Operations: Project Management, Process Improvement, Workflow Development, Process Auditing, Documentation

Technical: Microsoft Office, Data Management, Common Operating Systems

Languages: English and Spanish

Core Strengths: Problem Solving, Adaptability, Communication, Time Management, Teamwork, Cross-Functional Collaboration

WORK EXPERIENCE

QA Analyst

September, 2024 – Present

South Coast Welding & Manufacturing (SCW&M) – Chula Vista, CA

- Promoted from QA Specialist to QA Analyst within one year based on rapid development of technical, analytical, and process-management skills.
- Lead administrative and operational workflows supporting quality, documentation, compliance, and project execution across multiple teams.
- Identify inefficient manual processes and develop Excel VBA automation that reduced workflow tracking and processing time by 50%+.
- Automated a repetitive data-entry process involving 25 records, reducing processing time from approximately one hour to under two minutes.
- Designed reporting dashboards that provide leadership with improved visibility into project status, outstanding actions, workflow completion, and performance.
- Developed and standardized internal workflows and documentation to improve consistency, reduce errors, and increase operational efficiency.
- Authored the organization's official QA Administrative Work Instruction, establishing a standardized process for a previously undocumented workflow.
- Conduct process audits to identify documentation, workflow, and operational gaps and implement corrective actions.
- Serve as a primary point of contact between internal teams, external stakeholders, subcontractors, and technical personnel to resolve issues and maintain project progress.
- Lead cross-functional meetings, communicate project requirements, review outcomes, and coordinate follow-up actions.
- Mentor team members on workflow processes, documentation, and system usage to improve team proficiency and independence.
- Leverage AI tools and automation to streamline document management, data review, information retrieval, and process analysis.

SELECTED PROJECTS

Trinity – AI-Powered Quality Management System (QMS)

March, 2025 – Present

- Lead the design and development of a mobile-first AI platform that centralizes complex operational workflows, documentation, scheduling, and reporting.
 - • Translate operational problems into streamlined digital workflows, product requirements, and user experiences.
 - • Design intuitive desktop and mobile interfaces using human-centered design principles to simplify complex technical processes.
 - • Develop AI-driven automation for document processing, information retrieval, workflow generation, compliance checks, and repetitive administrative tasks.
 - • Build dashboards and tracking systems that improve visibility into tasks, documentation, personnel, equipment, and project status.
 - • Collaborate across technical, operational, quality, and business functions to identify inefficiencies and continuously improve the platform.
 - • Apply process improvement and automation to replace fragmented manual workflows with standardized digital processes.
-

EDUCATION

University of California, San Diego

- Bachelors of Science, Cognitive Design w/ a Specialization in Design & Interaction | GPA: 3.61

Imperial Valley College

- Associates of Science, Mathematics | 3.90
-

ACADEMIC & CREATIVE PROJECTS

AI-Libs

- Developed a theater-intermission game prototype using AI-driven storytelling.
- [Website](#)

HTE Project Design

- Collaborated with a team to solve a nonprofit challenge using human-centered design and project management principles. [High Tech Elementary](#)

Whova

- Produced a mobile app sign-up video guide, recognized for innovation in user experience
- [Whova](#)

The Star Vision

- Illustrated and developed a logo, displayed on The Star Vision [YouTube Channel](#)
